Thanks again, Sean. I currently expect Patty and I will attend, and I may also bring one of my technical consultants. I will let you know if there are any changes when we receive the comprehensive attendee list.

Bob

Hi Bob, I'll pass your attendee request onto Debbie Edwards to respond to on the Exxon side of things. For the governments, it will likely be Matt McClincy (by phone), myself, Lori Cora, Rob Neely and his contractor. Check in is on EPA's first floor and I'll escort you all up to the 12th floor. I'm awaiting a call in and webex from Exxon to share with the governments and yourself.

Also so I know whether this limited space I had available is sufficient, if you could let me know the total count for NWN as well, that would be appreciated.

Thank you.

S

Sean,

Thank you for your response. As we discussed last Friday, Patty and I are rearranging our schedules and canceling the conflicting project work sessions so that we can attend this meeting. It would be very helpful if you would provide complete attendee information, and also confirm that the meeting will be held at 9:30 AM at EPA's office in Seattle on November 2 so that we can make our travel plans accordingly.

Thanks again,

Bob

Subject: Request for Date for Meeting with EPA and ODEQ

Dear Sean,

As you know, we are seeking a meeting with EPA Region 10 in Seattle in October or November 2017 to discuss certain technical issues relating to the results of PAH investigations and source control issues at the Gasco site. Representatives of companies that are interested in this topic and who desire to discuss these issues with EPA and ODEQ are copied on this email. We envision this as a technical meeting at which we will present our data and conclusions and learn more about the agencies' views and source control efforts.

We sent a draft agenda to you on September 18 and have not yet received any comments on it. I am attaching it again for your review. Please send any additional agenda items you may wish to include.

We were advised by Matt McClincy that ODEQ representatives are unable to attend in person if the meeting is held in October or November, but will be able to participate by webex and telephone. We will offer dial-in details for that purpose.

We understand that ODEQ wishes to invite representatives of Gasco to attend the meeting. We have not done so, but have no objection to EPA or ODEQ including them.

Once again we are asking you for dates for a Seattle meeting. We are willing to come to Region 10's offices if that is your preference. We have polled the companies' representatives and offer three suggested dates that would work well for our participants, in order of our preference:

- (1) November 2
- (2) November 3
- (3) November 1

We look forward to hearing from you.

Best regards,
Elizabeth
